Incredible Opportunity to develop a High Performance Football Centre, here in the Algarve

Match Algarve – High Performance Football Centre is a sports centre of excellence, geared primarily at training, educating and recovering athletes from the football area, but also for athletes of other sports, professional or non-professional, such as footgolf, rugby, cycling, tennis, athletics, and even water sports like rowing, which can be practiced in the Barragem da Bravura [Bravura Dam], very close to our complex. The primary goal of Match Algarve is to provide a high performance sports centre for people connected to professional sports, but also for athletes that wish to research, train and compete within a stimulating environment, with unique conditions and a climate that can help them attain their sports goals. Match Algarve was designed and is fully prepared to provide national and international clubs with a series of infrastructures with cutting edge equipment and a highly experienced team that will provide the best monitoring for the preparation of athletes and teams of a wide variety of sports. Ultimately, Match Algarve intends to respond to the growing need of educational, professional and non-professional sport practice in constant growth at different levels. Located in the centre of a 610ha farm, it is an interesting architectural complex surrounded by football fields, sports infrastructure, a hotel and a range of accommodation facilities that combine modernity and tradition in a unique mixture between past, present, and future. The village of Corte do Bispo is the result of the recovery works in the buildings that used to constitute the manor house of the agriculture property, which will be
