As you will be arriving in the evening, or at the weekend, the key for the property will be left inside of a key safe for your collection.

The key safe is mounted on the wall by the front door, circled in red

Slide down the black cover, enter the **code 5085** and press the black button to open the safe. When you have retrieved the keys, close the front panel and scramble the buttons so the entry code you have just entered is not on display for security purposes. **Please do not try to change the code!**
